Fraxinus pennsylvanica 'Urbdell'

Foliage	Deciduous
Form	Round
Mature Size	15 x 8m
Family	Oleaceae

URBANITE ASH

This tree is attractive and tough. It has a pyramid shape with a strong, upright trunk and develops grey brown bark which becomes deeply furrowed as it matures. Yellowish-green flowers are produced in spring and in autumn, dark green, glossy foliage turns a beautiful bronze colour before falling. Suitable to a wide variety of both residential and commercial projects, it has a moderate growth rate and adapts to most soils and conditions.

This variety is ideal for street tree plantings, for gardens and parks and as a shade tree to 15m tall. As a mature tree it makes a fine specimen.

Prefers a moist, humus rich soil in full sun position. However it can tolerate a range of urban conditions.

Large **Deciduous** **Round** **Avenue** **Coastal**
