Syzygium australe 'Select Form'

Foliage	Evergreen
Form	Oval
Mature Size	6 x 3-4m
Family	Myrtaceae

SELECT FORM LILLY PILY

An Australian native shrub, this is a 'select form' of Syzygium australe with glossy green foliage, growing to the same height as 'Hinterland Gold' but with a more rounded leaf. New growth appears as flushes of bronze tinged foliage and in summer, fluffy white flowers appear, followed by fleshy, edible deep red berries. Great for formal hedging.

This reliable variety is used widely as a hedging or screening plant. It can also be used to add colour and texture to gardens. Adds form to native gardens.

Syzygium 'Select Form' will tolerate most soils in a full sun to part shade position. Enjoys moist, well drained soils.
