

Define Your Space with Trees

Outdoor spaces are an excellent extension of the home. We all love to escape to our own space, whatever your preference, there are loads of options to help make an outdoor space your own.

Acacia cognata 'Green Screen' **GREEN SCREEN WEEPING WATTLE**

This attractive small tree has weeping branches holding narrow, bright green foliage. During the winter months, masses of yellow, globular flowers cover the tree.

Acmena smithii 'DOW30' Sublime **™ (syn. Syzygium)** **SUBLIME CREEK LILLY PILLY**

This is a lovely hardy foliage-feature tree with refreshing lime new growth and dense foliage to the ground. A great option for hedging or screening to around 5m tall. In summer, some white fluffy flowers appear, berry production is unlike other Lilly Pillies, with minimal quantities of small edible deep to light mauve berries that don't stain surfaces if left or crushed.

Banksia integrifolia 'Sentinel' **'SENTINEL' BANKSIA**

This is a small shrub with medium frost tolerance for use as a dense narrow flowering screen. Preferring full sun to light shade it produces upright lemon brush-like flowers from late summer to winter. Responds well to pruning.

Ficus microcarpa hillii 'Flash'

FLASH ORNAMENTAL FIG

This could be a tall spreading shade tree, but mostly we see this tree ordered for its thick foliage and suitability for instant hedging and screens. 'Flash' has super attractive foliage that consists of different shades of green. They are great for clipping into a tight formal hedge, as a topiary specimen or a screen to 10m if left untrimmed. Just prune to keep shape! They also cope well in many growing situations and soils, in full sun or part shade.

Magnolia grandiflora 'Teddy Bear'™

TEDDY BEAR MAGNOLIA (EVERGREEN)

This is an evergreen, upright growing magnolia reaching 4m. Being naturally dense in habit, with a tight, compact form, it is ideal used as an informal hedge. Leaves are large and rounded - glossy and dark green on top with felted, bronze undersides. Gloriously large white flowers appear during the warmer months from late spring through to autumn.

Juniperus chinensis 'Spartan'

GREEN SPARTAN JUNIPER

This conifer is hardy and relatively fast growing. It has very dark green foliage, an upright, conical habit and produces small, fleshy berries. It is a very dense grower which requires little to no pruning, however, if pruned, responds very well, making it an ideal choice for topiary and hedging.

Syzygium australe 'Hinterland Gold'

HINTERLAND GOLD LILLY PILLY

A native shrub with a dense habit. This is a fast-growing variety well suited to hedging and screens. Compact glossy green foliage develops a lovely coppery hue in the new growth. During the warmer months, white fluffy blossom are borne, followed by fleshy red berries.
