

Reclaiming privacy with screens & hedges

Screening off the neighbours is one of the most common reasons behind any tree or plant purchase with us. But what type suits you best?

Waterhousea floribunda 'ST1' **Whisper (syn. Syzygium)**

WHISPER WEEPING LILLY PILLY

In the Lilly Pilly family, Waterhousea is a traditional option for large hedges and screens. Full and bushy with a pendulous habit, it can be shaped with shears or left for a more informal look. This is a big line for us so stock can move very quickly. Available in 50L containers & 100L, 150L and 300L bags.

Syzygium australe 'Hinterland Gold'

HINTERLAND GOLD LILLY PILLY

This is a moderately tight growing Lilly Pilly great for clipping into smaller hedges to define areas in the garden. It has green foliage with a golden hue. Clipping is only minimal though as it has a naturally uniform habit. We have great looking specimens in 50L containers and 100L bags.

Cupressocyparis leylandii **'Leightons Green'**

Rivalling the Lilly Pilly in function and popularity are conifers. One in particular is Cupressocyparis 'Leightons Green'. Planted tightly and clipped these large, good looking specimens with fine deep blue green foliage, create a great formal structure in a landscape. Clipped regularly, a row of 'Leightons Green' is definitely an attraction in itself. Or alternatively planted wider apart and left to grow, they are one of the best informal hedges that perform reliably. A truly great option and currently available in 50L containers and 100L bags. Be Quick!

Prunus lusitanica **EVERGREEN PRUNUS, PORTUGUESE** **LAUREL**

A flowering hedging option. This is an evergreen tree with blackish-brown bark, glossy dark green oval leaves and small white flowers. The flowers run on long bracts and these are often clipped for the tree to keep its formal shape. We have good looking material in 40cm and 50L containers.

Magnolia grandiflora 'Teddy Bear'™ **Ⓛ** **TEDDY BEAR MAGNOLIA (EVERGREEN)**

Combining dense glossy green foliage with big, beautiful milky-white flowers, the newer selection of dwarf magnolias make a classy feature wall. A popular specimen is Magnolia 'Teddy Bear' with its dense growth and plump and shapely, cup-shaped leaves. You just have to see our magnificent stock! We have premium material 40cm, 50L and 100L.

Magnolia grandiflora 'Kay Parris' **KAY PARRIS MAGNOLIA (EVERGREEN)**

This is a beautiful specimen and great for an informal screen. With a distinctive wavy leaf, creamy-white flowers and fuller figure compared to say a 'Little Gem' or 'Exmouth', 'Kay Parris' is making a splash. Come and see our material in 40cm, 50L, 100L, 150L and bigger.
