

Betula pendula

SILVER BIRCH

This popular form of Silver Birch has a white trunk and fresh green foliage. Attractive planted in odd numbered groups to create a bushland effect particularly in larger gardens. Highly variable in habit as they are grown from seed. Bark is a brown-grey when young maturing to white and papery in texture. Foliage is a bright green and autumn colour is yellow. Pyramidal in shape. Produces flower-like catkins.

Great as a feature tree or planted in groups for a bushland effect.

Grows well in most soils in a sunny to part shade position. Prune in autumn or early winter when dormant.
