

<b>Tree</b>	 <p><b>Acer saccharinum 'Pyramidale'</b> PYRAMIDAL SILVER MAPLE</p>
<b>Description</b>	<p>This is a large deciduous tree with a columnar form in early years, developing a more rounded crown in maturity making it pyramidal in shape. Foliage is dark green with a grey-white underside. In autumn, foliage turns a yellow and bronze with new spring growth opening in redish-blue tones. Flowers are greenish-yellow but inconspicuous. Considered a fast-growing but shallow-rooted with strong branching roots and fibrous rootlets.</p>
<b>Foliage</b>	<p> Deciduous</p>
<b>Form</b>	<p> Round</p>
<b>Mature Size</b>	<p>20 x 12m</p>
<b>Uses</b>	<p>With competitive surface roots, this tree suits areas where fast shade is needed. Pretty autumnal colour makes it an attractive feature.</p>
<b>Position &amp; Soil</b>	<p>This tree is known for having a high tolerance for poor soils, heat and drought.</p>
<b>Features</b>	<p>  Large   Deciduous   Round   Avenue   Feature Foliage   Shade Tree   Specimen </p>
<b>Pot sizes in production</b>	<p>• 40cm/27L (1.4-1.8m)</p>
<b>Substitutes</b>	<p>• Acer campestre 'Elsrijk'</p>
