

<b>Tree</b>	 <p><b>Adenanthos sericeus 'Silver Streak'</b>        SILVER WOOLLY BUSH</p>
<b>Description</b>	<p>Known commonly as 'Woolly Bush', this Australian shrub-like tree is covered in fine, ferny silver grey/green foliage giving it a 'soft' appearance and soft to the touch. A great tree with brilliant red small flowers in amongst the foliage.</p>
<b>Foliage</b>	
<b>Form</b>	<p>🌳 Shrub</p>
<b>Mature Size</b>	<p>2 x 1.5m</p>
<b>Uses</b>	<p>This is an attractive native shrub-like tree used for contrast in the landscape, as a specimen tree or can be hedged for a unique soft affect. Tip pruning gives the bush a great shape although pruning is not necessary. Great native alternative to a xmas tree when grown in a pot.</p>
<b>Position &amp; Soil</b>	<p>Very drought tolerant and low maintenance as it requires very little water. Prefers dry summers rather than a humid climate.</p>
