

Tree	 <p>Catalpa bignonioides INDIAN BEAN TREE</p>
Description	This is a large attractive tree with a broad dome-shaped canopy and large long-stalked leaves. In summer it carries bell-shaped flowers in white, various pink shades, and soft apricot-orange, followed by clusters of long, pendulous, bean-like seed capsules, hence its common name.
Foliage	 Deciduous
Form	 Broad-domed
Mature Size	15 x 12m
Uses	Perhaps tropical in appearance they make ideal subjects for parks, gardens, and avenue planting. They are very fast growing.
Position & Soil	Prefers sunny positions and is perfect for larger gardens. Whilst it prefers a rich moist soil, it can tolerate dry periods.
Features	 Large  Deciduous  Broad-domed  Feature Flower  Shade Tree
