

Tree	 <p>Citrus limon 'Meyer Lemon'</p>
Description	Meyer is a smaller growing bushy tree which produces numerous crops of medium sized lemons throughout the year. The fruit is rounder in shape than the traditional lemon and has a softer skin which turns a deep golden colour when fully ripe. This variety produces an abundance of juice which contains less acid and so is slightly sweeter than other varieties.
Foliage	
Form	<input checked="" type="radio"/> Round
Mature Size	3 x 2m
Uses	This lemon makes a fantastic pot specimen. Works well in small gardens as well as large gardens as part of a backyard orchard.
Position & Soil	This is a cold tolerant lemon tree. Prefers a humus rich soil in a sunny position. Fertiliser can be added in the growing periods for a good fruit production.
