

<p>Tree</p>	 <p>Corymbia eximia YELLOW BLOODWOOD</p>
<p>Description</p>	<p>This Australian native Corymbia (syn. Eucalyptus) has scaly yellow-brown bark. The leaves are broad, thick, curved and blue-green in colour. It produces large creamy flowers in spring that are in clusters of up to seven. The flowers attract birds and insects in spring.</p>
<p>Foliage</p>	<p> Evergreen</p>
<p>Form</p>	<p> Round</p>
<p>Mature Size</p>	<p>10 x 7m</p>
<p>Uses</p>	<p>A great feature medium-sized tree for large gardens. Can also be used in streetscapes and parks. Great for habitat for native fauna.</p>
<p>Position & Soil</p>	<p>Suits dry conditions once established. Will tolerate most soils in full sun position. Does not tolerate frost well. Leaves will turn a yellow green in winter but as the weather heats up the colour will change quickly.</p>
