Description This variation of the Smoke Bush is a hardy, deciduous shrub well suited to cooler areas. Soft purple foliage deepens in colour over summer, particularly if planted in full sun and is retained until autumn when it turns a brilliant orange colour. Tiny pink flowers are borne on the ends of long stalks over the warmer months, giving a dramatic effect similar to plumes of smoke. Foliage Form Shrub Mature Size 2-4 x 2-4m This tree looks good planted alone or within a mix of plants. The affect of its smokey-looking flowers adds a certain uniqueness to landscape designs. Position & Soil Will grow in a wide range of soils and climatic conditions but would prefer a full sun position in a well-drained soil.
