

<p><b>Tree</b></p>	 <p><b>Eucalyptus pauciflora nana</b>        DWARF SNOW GUM</p>
<p><b>Description</b></p>	<p>This is a small native tree that exhibits patches of grey, white and a reddish-pink bark in older growth on smooth trunks. Its foliage is dark green to greenish-blue and narrow in shape but still holds that typical pauciflora leaf; large, thick and waxy. The flowers attract butterflies, bees and birds. Originating from the alpine region of Victoria, this tree comes from an improved seed source, selected specifically as a more reliable and in many ways, a better-looking alternative to Eucalyptus pauciflora 'Little Snowman'.</p>
<p><b>Foliage</b></p>	<p> Evergreen</p>
<p><b>Form</b></p>	<p> Pendulous</p>
<p><b>Mature Size</b></p>	<p>4-7 x 3-5m</p>
<p><b>Uses</b></p>	<p>This tree is highly suitable for smaller gardens due to its small growing habit. Does well in parks and streetscapes. Great for native habitat.</p>
<p><b>Position &amp; Soil</b></p>	<p>Is tolerant of sandy, and poor soil sites but needs good drainage. May need extra water in very dry periods.</p>
