

<b>Tree</b>	 <p><b>Leptospermum brachyandrum</b> SILVER WEEPING TEA TREE</p>
<b>Description</b>	This is an attractive small tea tree growing to 5m tall with gently arching branches and charming silver foliage. Small white flowers are produced in spring.
<b>Foliage</b>	 Evergreen
<b>Form</b>	 Pendulous
<b>Mature Size</b>	3 x 3-5m
<b>Uses</b>	Use this tree to create a lovely informal native screen. Can also be used as a feature specimen in a small garden or planted in multiples for a bushland effect.
<b>Position &amp; Soil</b>	Grows in full sun to part shade. This small tree is suitable for poorly drained soils and will require some moisture. Once established it requires very little maintenance but would appreciate a tip prune from time to time to keep it neat. Mulching around the base of the plant will help to conserve moisture.
