Tree	Liquidambar styraciflua 'Golden Sun'
Description	This attractive, deciduous tree is pale yellow in spring, green in summer, changing to sensational red tones in autumn. It has unique golden yellow branches on new growth and ascending branches that ultimately form a compact pyramidal shape. It is smaller than other Liquidambar varieties and is better suited for residential gardens with limited space.
Foliage	⊕ Deciduous
Form	( Oval
Mature Size	6 x 3m
Uses	A beautiful tree for parks and gardens. It has stunning foliage in autumn that makes it a great selection as a feature tree.
Position & Soil	Prefers full sun in well-drained soils. A hardy tree once established that tolerates many growing locations including wet soil.
