Tree				
	Lophostemon suaveolens			
	SWAMP BOX, SWAMP TURPENTINE			
Description	This hardy Australian native tree has a fast-growing and weeping habit, dull green foliage and small clusters of creamy-white flowers that appear in spring and summer.			
Foliage	& Evergreen			
Form	(Oval			
Mature Size	10-18 x 7-10m			
Uses	This variable height tree is mostly used as a shade tree on farms, paddocks and large properties. It is known as a good source of honey for bees and butterfly attracting. Can provide useful timber. Minor koala food source, but useful for habitat creation for native wildlife.			
Position & Soil	It prefers full sun in moist/wet soil and tropic to sub- tropic conditions but also grows well in areas offering a temperate to warm climate. Will tolerate wet conditions and flooding and salt air in coastal conditions.			
Features	(M) Medium
