

Tree	 <p>Photinia x fraseri 'NP01' Thin Red <small>TM</small> </p> <p>THIN RED PHOTINIA</p>
Description	<p>Thin Red™ Photinia is a narrow hedging plant with beautiful red new-growth foliage. Displays of small white flowers can be seen in mid to late spring.</p>
Foliage	 Evergreen
Form	 Fastigate
Mature Size	<p>3-4 x 0.6m</p>
Uses	<p>A good selection for small hedging or screening particularly in garden beds with limited planting space.</p>
Position & Soil	<p>Full sun to part shade. Works with most soil types. Water as required for 8-13 weeks until established. Plant with chunky mulch and fertilise yearly with slow-release fertiliser. Prune yearly, or twice per year for a more tidy hedge.</p>
