

<p>Tree</p>	 <p>Pyrus ussuriensis MANCHURIAN ORNAMENTAL PEAR</p>
<p>Description</p>	<p>This Manchurian Pear is a very popular selection largely due to the brilliant display of colour in Autumn. The dark green foliage is oval in shape with serrated edges and the onset of Autumn sees this leaves turning to a rich, dark red. Wider spreading than the 'Capital' or 'Cleveland Select', this form has a dense, rounded habit maturing to be a broad, medium-sized tree. Very early flowering, dark brown buds begin to open revealing a light pink colour before bursting into a beautiful spring show of white flowers. Small fruits follow the flowers, and although they are generally unpalatable to humans, birds and other wildlife have been known to feed off them.</p>
<p>Foliage</p>	<p> Deciduous</p>
<p>Form</p>	<p> Horizontal Branching</p>
<p>Mature Size</p>	<p>9 x 7m</p>
<p>Uses</p>	<p>A great feature tree in all sized gardens. Can be used for street and avenue planting due to its lovely autumn colour and spring blossom.</p>
<p>Position & Soil</p>	<p>Prefers a humus rich well drained soil in full sun to part shade. Adapt pretty well to most conditions but care must be taken in excessively hot periods.</p>

Features	<ul style="list-style-type: none">  Medium  Deciduous  Horizontal Branching  Avenue  Feature Flower  Feature Foliage  Group Planting  Informal Screening  Shade Tree  Specimen
Pot sizes in production	<ul style="list-style-type: none"> • 40cm/27L (1.5-2.0m) • 50cm/52L (2.2-2.5m) • 100L (3.0-4.0m)
