

Corymbia ficifolia 'Baby Scarlet'

GRAFTED FLOWERING GUM

A new grafted variety of ficifolia that has beautiful red new growth. A small compact growing native that adds great colour in the garden. The bird and insect attracting flowers are scarlet in colour and flower from Spring through Summer.

This variety makes an ideal native specimen tree in most garden sizes. It can be used with distinction in streetscapes and parks. Great as a screen or avenue tree.

Being native, this tree can tolerate a wide variety of soil conditions but prefers full sun and a well drained soil.
