

Malus tschonoskii

UPRIGHT CRAB APPLE

This is a strongly upright growing deciduous tree with good autumn colour. It is also a good alternative to an Ornamental Pear. Dark green ovate leaves are slightly hairy. White flowers with a pink flush are followed by green fruit with a red tinge. Brilliant colours of yellow, red and burgundy are present in the autumn months.

A good tree selection for flowering display within a restricted space. A great feature tree or great for avenue planting.

Prefers well-drained organic-rich soils in a part shade position. Does prefer a slightly acidic soil.
