

Morus alba pendula '(weeping standard)'

WEeping MULBERRY

This is a densely weeping grafted Mulberry standard with glossy green foliage turning to various shades of orange and yellow in autumn. Flowers are insignificant, but are followed by a small quantity of small reddish-black edible fruit.

As a weeping standard, the pendulous foliage of this tree makes it a magnificent feature tree or centre-piece to a garden design.

Tolerates coastal conditions. Suitable for most climates and soil conditions.
