

Olea europaea 'Tolley's Upright'

TOLLEY'S UPRIGHT OLIVE (LOW FRUITING)

This is a low-fruiting variety of olive tree that has an upright growth. Responds well to pruning and can be grown with a single leader or easily pruned into a hedge for screening. Foliage is silvery.

As a low-fruiting variety, it is ideal for streetscapes, as there is no problem of fruit dropping on pathways. Olives are ideally suited to the residential garden too as they are long-lived, small in stature, and are easily pruned. Where space allows Olives look great planted in multiple numbers. A good option for informal screening.

This variety will tolerate most soils as well as prolonged periods of dryness. Like most trees, it prefers a humus-rich well drained soil in a sunny position.
