

Prunus cerasifera 'Oakville Crimson Spire'

OAKVILLE CRIMSON ORNAMENTAL PLUM

This is an attractive flowering Plum with reddish-bronze foliage when young, turning darker when mature. Blossom starts off white and goes pale pink. It has an upright fastigate form with dense foliage so it would work well for screening in smaller gardens where space is an issue and height is required.

Being an upright grower with reddish foliage, this tree is perfect for contrast in the garden, as a feature or planted in multiple numbers for screening.

This variety performs well in well-drained, moist soil. It will flower best with full sun exposure.
