

Prunus persica 'Valley Red'

VALLEY RED DWARF PEACH

This compact growing Peach variety produces medium to large deep pink to orange fruit with a sweet gold flesh, ideal for plucking and eating straight off the branch. The green foliage and the double pink blossoms provide a stunning all-round tree.

This variety is good for eating fresh, canning or stewing. As a dwarf form it is ideal for gardens with limited space.

As it is a dwarf form, plant in a sunny position in a well-drained soil. Apply a complete fertiliser in winter and prune after harvest to manage branch growth and to prevent overcrowding. Spraying to prevent peach leaf curl is recommended.
