

Quercus phellos

WILLOW LEAFED OAK

This is a deciduous tree with long, willow-like leaves, hence it's common name. This foliage turns yellow in spring, bright green in summer then a golden yellow in autumn before falling. As a member of the Oak family it produces acorns in autumn.

Works well as a street tree or as a shade tree in a park, domestic or commercial situation. A pretty tree mass planted if you have the space.

It can tolerate periods of wet and dry but prefers an
