

Waterhousea floribunda 'Green Avenue' (syn. Syzygium)

GREEN AVENUE WEEPING LILY PILLY

This is an older varietal of *Waterhousea floribunda*, with broad, graceful weeping foliage, symmetrical growth and upright crown. It is fully green in colour with bright green new growth maturing to dark green.

Waterhousea is considered a wonderful choice for softening hard urban landscapes. It is an ideal avenue or stand-alone feature tree. This variety is suitable for customers wanting a taller screen than our flagship *Waterhousea* 'Whisper', and differs in not having the new pink-yellow growth that 'Whisper' has.

Is tolerant of most soils in a full sun to part shade position. Can tolerate occasional wet conditions. Responds well to pruning.
