

Zelkova serrata 'Green Vase'

GREEN VASE JAPANESE ELM

A fast-growing, medium-sized, deciduous tree. 'Green Vase' matures to a graceful, uniform V-shaped tree with a short trunk and upright branching. Bark is distinctive, predominantly in shades of yellows and light greys and has a flaky appearance revealing additional textures and tones of orange, brown and pink. In autumn, the dark green leaves held through spring and summer turn to an array of colours ranging from soft yellows to orange and rusty reds.

Due to its size and shape, this is a good shade tree for large landscaping jobs and lovely autumn colour. Its V shape also lends itself to street planting.

Prefers being planted deeply in well-drained soil and in full sun.
